

# MOTOTRBO<sup>™</sup> DP3441 PORTABLE RADIO

# **NOW YOU'RE READY FOR ANYTHING**

You have to be agile while you stay connected. You need an unobtrusive radio that's tough enough to handle workplace abuse, but doesn't get in your way. Now there's an extra-small portable that gives you all of that, plus all the advanced features of digital technology to elevate communications in your business.

Versatile and powerful, MOTOTRBO<sup>™</sup> combines the best of two-way radio functionality with the latest analogue and digital technology. The MOTOTRBO portfolio gives you the right device for the right user, from voice-only portables to feature-rich voice and data radios.

Incredibly compact and exceptionally rugged, the MOTOTRBO DP3441 is the perfect solution for the professional on the move. It integrates voice and data seamlessly, offers enhanced features that are easy to use, and delivers business-critical advantages like integrated Bluetooth<sup>®</sup> and Intelligent Audio.

The DP3441 fits comfortably in your hand, so you can carry it easily. Place it on your belt in its custom carry holster and move freely while you stay light on your feet. It's loaded with all the benefits of the latest digital technology – superb audio quality, amazing clarity, outstanding coverage, long-lasting battery life and more.

The DP3441 keeps you agile and in touch in tough work environments, helping you to achieve even greater efficiency and safety.

SMALL, TOUGH AND POWERFUL, FOR THE DEMANDING PROFESSIONAL WHO WANTS TO STAY LIGHT ON THEIR FEET

# HEAR AND BE HEARD CLEARLY OVER NOISE

When it comes to exceptional audio quality, digital technology can't be beaten. DP3441 portables give you digital audio performance throughout your coverage area plus unique features to help employees hear and be heard clearly, wherever they work.

With Intelligent Audio, the radio volume automatically adjusts to compensate for background noise. Workers don't have to adjust their radio volume to avoid missing a call in loud places or disturb others when they move into quiet areas. Increased background noise suppression helps filter out unwanted external sounds – from heavy equipment to crowd noise.

# **UNLEASH THE POWER OF YOUR RADIO**

To get the best from your DP3441 radio, combine it with Motorola Original<sup>®</sup> accessories. These are the only ones designed, tested and built to the same standard as Motorola radios, helping ensure optimal performance. To view the range of batteries, headsets, Remote Speaker Microphones and more that are available, see the separate DP3441 Accessories Fact Sheet.

# STREAMLINE THE WORKDAY WITH INTEGRATED DATA

DP3441 portable radios feature integrated Bluetooth<sup>®</sup> to share information wirelessly and instantly between devices. Now rather than waiting until the end of a shift, busy work crews can send real-time data directly to the office, saving time and enhancing decision-making.

Integrated GPS enables location tracking of mobile work teams, helping improve personnel safety and operational efficiency. And if an emergency occurs, you can pinpoint security personnel and quickly despatch the nearest to the scene.

# WATER AND DUST-TIGHT TOUGH

Drop it, wet it, submerge it, blast it with dust and dirt. The DP3441 powers through harsh environments and inhospitable conditions so your teams have reliable communications to do their jobs, safely and efficiently – whether they're a grounds crew on a golf course or a private security team on campus.

The DP3441 is IP67-rated, and meets or exceeds U.S. Military Standard 810 C, D, E, F, & G for exceptional durability. It also undergoes the unique and gruelling Motorola Accelerated Life Testing that simulates up to five years of hard use in the most challenging environments, so you can be assured it will last.

# **MIGRATE AT YOUR OWN PACE**

It's easy to migrate from analogue to digital because DP3441 can operate in both modes. Programme channels in analogue or digital mode and the radio will scan both, automatically switching as necessary, so you can use your existing analogue system and move to digital when time and budget allow.

# **INTEGRATE YOUR DEVICES SEAMLESSLY**

Make sure your new MOTOTRBO system is ready when you are. We can bring together the right experts and processes to help you integrate DP3441 radios into your existing system, quickly and cost-effectively. This includes Coverage Mapping, Site Integration, Device Programming and IP Networking Services.

# **GET DURABILITY THAT ENDURES**

MOTOTRBO radios are made to last and backed by a two-year Standard Warranty, with 1-year warranty for batteries and Motorola-branded accessories. In addition, Service from the Start provides multi-year peace of mind with fast repair turnaround times, expert telephone technical support and access to the latest software releases<sup>1</sup>; all backed by Motorola's globally integrated services infrastructure, highly qualified support technicians and certified repair facilities.

# **MOTOROLA ACCELERATED LIFE TESTING PROGRAM**

RAIN Steady rainfall and wind on every surface

**BLOWING DUST** Subjected to blowing dust on all surfaces

#### VIBRATION

Prolonged exposure to vibration that simulates the rigors a radio could undergo while being carried or transported

### SALT FOG

Testing to ensure resistance to corrosive atmospheres

#### DROP ONTO HARD SURFACE Simulates everyday bumps, knocks and rough treatment

TEMPERATURE STORAGE

Repeated exposure to storage temperatures as low as -55°C and as high as 70°C
